

Premanand Patil

.NET Full Stack Developer

Pune | pprem2802@gmail.com | 9146911267 | LinkedIn | Portfolio

Professional Summary

Results-driven .NET Full Stack Developer with 2+ years of experience designing and developing enterprise applications including ERP, HRMS, Inventory Management, and Customer Portal solutions. Proficient in C#, ASP.NET MVC, SQL Server, JavaScript, REST APIs, authentication, authorization, and responsive web development. Experienced in SQL optimization and AI-assisted software development using GitHub Copilot, Cursor IDE, and modern LLM-based development workflows to accelerate coding, debugging, refactoring, and feature implementation while maintaining production-quality code..

Core Technical Skills

- **Programming Languages:** C#, JavaScript, HTML5, CSS3, C
- **Frameworks & Libraries:** .NET Framework, ASP.NET MVC, Bootstrap, jQuery
- **Backend Technologies:** REST APIs, Web Services, Authentication, Authorization
- **Database Technologies:** SQL Server, SSMS, Stored Procedures
- **Version Control:** Git, GitHub, NuGet
- **AI Developer Tools:** GitHub Copilot, Prompt Engineering, LLM-assisted Development
- **Development Tools:** Visual Studio, VS Code, Cursor IDE, SSMS
- **Design Tools:** Figma, Adobe XD
- **Other Technologies:** Responsive Design, API Integration, RBAC, SQL Query Optimization

Professional Experience

Developer Engineer — Suntek Axxpress

Jan 2024 – Present

- Leading development and maintenance of ERP and HRMS systems for enterprise operations
- Designed and implemented Inventory Management System with real-time tracking functionality
- Built secure Customer Portal with authentication, authorization, and reporting features
- Designed, developed, and integrated RESTful APIs for enterprise business applications
- Optimized SQL Server queries and stored procedures, improving application responsiveness and database performance
- Leveraged AI-assisted development tools including GitHub Copilot and Cursor IDE to accelerate feature development, debugging, code refactoring, SQL query optimization, and documentation while maintaining production-quality software.
- Developed responsive UI modules using HTML5, CSS3, JavaScript, Bootstrap, and jQuery to deliver consistent user experience across devices
- Collaborated with cross-functional teams for feature development, testing, deployment, and production support
- Managed source control and workflows using Git and GitHub
- Developed and maintained the company's corporate website, implementing responsive UI enhancements and ongoing feature updates
- **Technologies Used:** .NET, SQL Server, JavaScript, Bootstrap, REST APIs, Git, GitHub Copilot, Cursor IDE

UX/UI Intern — Kartexa

Feb 2023 – May 2023

- Designed modern UI/UX layouts using Figma and Adobe XD
- Built interactive prototypes for payment workflows
- Conducted user research and improved interfaces based on feedback
- Collaborated with developers for accurate frontend implementation

Education

Bachelor of Engineering (Information Technology)

2017 – 2022

Savitribai Phule Pune University

- CGPA: 7.62 / 10.0
- Coursework: Data Structures, DBMS, Web Technologies, Software Engineering

Projects

Enterprise Resource Planning (ERP) System

2024

- Developed ERP modules including Inventory Management, Customer Management, Sales, Purchase, HR, and Reporting
- Implemented Role-Based Access Control (RBAC)
- Built business analytics dashboards and reporting modules
- **Technologies:** .NET Framework, SQL Server, JavaScript, Bootstrap

Human Resource Management System (HRMS)

2023

- Developed Attendance Management, Leave Management, Payroll, Salary Slip, and Employee Profile modules
- Built performance evaluation and employee feedback workflows
- **Technologies:** .NET, SQL Server, HTML5, CSS3, JavaScript

Decentralized Pharma Supply Chain

2022

- Designed blockchain-based pharmaceutical tracking system
- Created Solidity smart contracts for transaction validation
- Integrated Web3.js for blockchain communication
- **Technologies:** Ethereum, Solidity, Web3.js, JavaScript, Bootstrap

Training & Learning

DevOps Training — Edureka

Ongoing

- Learning Docker, CI/CD pipelines, cloud fundamentals, deployment automation, and modern DevOps practices
